## Features and Benefits (ILLUSION)

### INDOOR UNIT

- ◇ Whether you install it in a villa, office, hotel, residential or public building, Trane's Illusion Minisplit System offers you convenience at your fingertips. Its remote control unit lets you cool or heat the interiors at the touch of a button. It saves on energy costs and guarantees years of trouble-free comfort because of its unmatched reliability. Illusion is perfect for rooms varying from 20 sq. m to 160 sq. m. This system is easy to install, ideal for areas with a false ceiling and functions very silently.
